

Plug Type and Power Range Reference Table (For 110V Countries such as the USA, Canada, Japan, etc.)

Plug Type (Description)	Voltage	Max Current	Recommended Power Range	Installation Notes	Examples for Reference	Compatible LINKO Models
NEMA 5-15 (Standard Household Plug)	110V	15A	≤ 1.0 kW	Fits standard US 3-pin household outlets, no changes needed	Coffee maker, microwave, iron	<ol style="list-style-type: none"> All DTF printers All UV DTF printers All compact UV flatbed printers All DTG printers Single-head sublimation printers (with front dryer system) Compact powder shakers (H / M series: A400W, A400L, M653, M654) Small fume filters (JS40, JS51, JS101) Manual single-station heat press machines (≤ 40×60 cm)
NEMA 5-20 (Enhanced Household Plug)	110V	20A	≤ 1.5 kW	Ensure outlet supports 20A horizontal slot or replace as needed	Juicer, vacuum cleaner, high-power hair dryer	<ol style="list-style-type: none"> Dual-head sublimation printers (with front dryer system) Medium-size fume filters (JS160, JS200) Medium-size cutting plotters (KFS-6060, KFK-7090)
NEMA 6-20 (For 220V Equipment)	220V	20A	2.5–3.2 kW	Confirm availability of 220V power and matching outlet, if not, arrange installation in advance.	Electric stove, wall-mounted dryer	<ol style="list-style-type: none"> Medium-to-large powder shakers (H, S, M series: B652, H652, H654, H655, HL653, M6503, M6504, M9504) Pneumatic/hydraulic single, double, or quad-station heat press machines (≤ 60×40 cm) 2–4 head sublimation printers (with front dryer system)
L6-30 (Industrial Twist-Lock Plug)	220V	30A	4–5 kW	Requires wiring of industrial plug and ≥30A breaker by electrician. Plug not included; user to provide.	Commercial dryer, steam ironing station	<ol style="list-style-type: none"> Large powder shakers (H, S series: H6502, H6504, HS6502) Manual single-station heat press machines (≥ 50×70 cm) Pneumatic/hydraulic single, double, or quad-station heat press machines (≥ 50×70 cm)
L14-30 (3-Phase Generator/Industrial Plug)	208/240V	30A	≥5 kW	Three-phase power and ≥ 30A breaker required. Must be installed by electrician. Plug not included; user to provide.	Portable generator or multifunction commercial equipment	<ol style="list-style-type: none"> Large dual-station heat press machines (≥ 80×100 cm) 8-head or larger sublimation printers (with front dryer system) Industrial Roller Heat Press Machine
