

Plug Type and Power Range Reference Table (For 220V Countries)

Plug Type (Description)	Voltage	Max Current	Recommended Power	Installation Notes	Examples for Reference	Compatible LINKO Models
10A Household Plug (Common Appliances)	220V	10A	≤ 2.5 kW	Use standard 220V 3-pin household outlet, no changes needed.	Similar to rice cooker, hair dryer, water dispenser	<ol style="list-style-type: none"> All DTF printers All UV DTF printers All Small UV flatbed printers All DTG printers Single-head sublimation printers (with front dryer) H / M series powder shakers (e.g., A400W, A400L, M653, M654) Fume filters (JS40/JS51/JS101/JS160/JS200) Manual single-station heat press (≤ 40×60cm)
16A Plug (For medium-power household appliances)	220V	16A	2.2–4.4 kW	Ensure availability of 16A outlet or replace with electrician help.	Like wall-mounted air conditioner, electric water heater	<ol style="list-style-type: none"> Mid-size powder shakers (H, S, M series, e.g., B652, H654, H655, M6503, M6504, M9504, HL653) Manual single-station heat press (> 40×60cm) Pneumatic dual-station heat press (≤ 60×40cm) Dual-head sublimation printers (with front dryer) Medium-size cutting plotters (e.g., KFS-6060, KFK-7090)
Industrial 3-Pin Plug (High Power Heating Devices)	220/380V	25A	4–6 kW	Requires wiring of industrial plug and ≥25A breaker by electrician. Plug not included; user to provide.	Commercial ovens, steam boxes, etc.	<ol style="list-style-type: none"> Medium-to-large powder shakers (H series, S series, e.g., H6502, H6504, HS6502) Manual single-station heat press (≥ 50×70 cm) Pneumatic or hydraulic single/double/quad-station heat press (≥ 50×70 cm) 4-head heat transfer printer (with front dryer system)
Directly connected to the distribution box (heavy-duty equipment)	220/380V	32+A	≥6 kW	Three-phase power and ≥ 32A breaker required. Must be installed by electrician. Plug not included; user to provide.	Large kitchen steam cabinet, commercial dryer	<ol style="list-style-type: none"> Large dual-station heat press (≥ 80×100 cm) 8-head and above sublimation printers (with front dryer system) Industrial Roller Heat Press Machiners
